2023-2024 Rising Sun-Ohio County Community Schools

Return to Learn

*This document is an **ever-changing** document and changes are expected*

This plan could change if COVID cases increase dramatically throughout our district. Our main goals are the safety of our students, staff, and community while also making sure that students are at school as much as possible.

2023-2024 Covid Guidelines

***Covid Guidelines are subject to change based on individual circumstances and based on current trends and rate of outbreaks at the discretion of school administration and the county health department.

***All positive covid cases should be reported to the appropriate school office.   All covid questions can be directed to school administration, our school nurse, or the Ohio County Health Department.

Positive Covid Test (Staff or Student)

- Any test will be accepted including at home tests, tests done at school, tests done at any testing site, and/or tests done at a doctor's office or medical facility. At home tests can be purchased at many stores and may also be available through the school or health department.
- A positive test will require that person to be excluded from school for 5 days from the first date of symptoms If symptoms are improving and you have been fever free for 24 hours without medication, you may return to school.
